Hi George,
Hope all is well with you and your family,
I have not heard from you in reference to the Homeless Encampment in front of our property in the heart of East Hollywood.
It seem like it grows with additional occupants, dogs, scooter, furnishings, boxes and miscellaneous junk, hovering the fire hydrant that will save our property in case of a fire.
Have you had a chance to do some thing about this problem.
What do you recommend for me to do. I do not want to be confrontational. What are my options?
Please advise/
Thanks,
